

G.O.A.T. GREATEST OF ALL TIME COMPETITION

*Supported by MLA Australian Good Meat
Education*

CURRICULUM ALIGNMENT & CLASSROOM RESOURCES

FOUNDATION - GRADE 6

COMPETITION OVERVIEW

The G.O.A.T. (Greatest Of All Time) Competition provides a fun and interactive way for students to learn about food and fibre production through use of the curriculum-linked Australian Good Meat Education resources.

Each student will have the opportunity to submit one design. Entries will be judged with 20 finalists selected to receive a life-sized, fibreglass goat (7kg) to display their design. The student – with the help of their classmates – will replicate their submitted entry by painting it onto the goat.

All 20 painted goats remain the property of the RNA and will be returned to the Brisbane Showgrounds for display at this year's Ekka.

The design must be accompanied with a 100 word explanation to support their artistic direction.

In its inaugural year (2024) the G.O.A.T. (Greatest of all Time) Competition won silver in the 2024 Competitive Exhibits Award category at the International Association of Fairs and Expos (IAFE).

IMPORTANT CONTACTS

Education Content and Competition Enquiries

education@ekka.com.au

Ekka School & Group Bookings Enquiries

groupbookings@ekka.com.au

COMPETITION DETAILS

STAGE 1

Students download the template of a goat to create a design that aligns with the competition theme. Teachers utilise the recommended Australian Good Meat Education resources contained on the following pages for students to learn about food and fibre production in the classroom.

STAGE 2

Template designs will be judged and 20 finalists will be selected to receive a life-sized fibreglass goat (7kg) to paint their selected design with help from their class. We would encourage the use of non-toxic paint and varnish when completed.

PRIZE DETAILS

First Prize: \$500.00 Cash Prize, Trophy and Sash
Second Prize: \$300.00 Cash Prize, Trophy and Sash
Third Prize: \$200.00 Cash Prize, Trophy and Sash

Prizes, resources and transport have been sponsored by [MLA Australian Good Meat Education](#).

RESOURCE: SEASONS ON THE FARM

Lesson Objective

Students will learn about the features of seasons on farms and the jobs that occur because of the changing conditions.

Teacher Resources

Australian Good Meat Education offers an extensive range of free, curriculum-aligned and classroom-ready primary resources. The Teachers guide offers a range of activities and suggested topics of discussion on farming.

Link to Teacher Guide: [Seasons on the Farm](#)

A Year on our Farm

After students have had the opportunity to contribute their ideas, as a class, read the story 'A Year on our Farm' by Penny Matthews and Andrew McLean or watch the video clip reading of A Year on Our Farm. Students should listen for any jobs that the people in the story perform during the different seasons.

RESOURCE: GROWING AND CHANGING ON THE FARM

Lesson Objective

Students will learn about how farm animals can grow and change over time, focusing on naming, modelling and measuring these changes through hands-on activities.

Link to Poster [Goats: Growing and changing](#)

Link to Teacher Guide [Activity 3.2 Living thing on the farm grow and change](#)

Worksheet **2.3c**

PLEASE NOTE: This activity requires single-sided printing

Match me!

Cut out the cards below. Match the animal with the description and paste them on the template.

	<p>Nubian goats have long ears. They may or may not have horns. They can be many different combinations of colours, including speckled. They are able to tolerate hot conditions.</p>	
<p>Brahman cattle are suited to hot conditions. They have loose skin with a dark pigment under their coats. They have a hump near their neck.</p>		<p>Hereford cattle are rusty brown in colour with patches of white. They can be horned or polled (no horns).</p>
	<p>Border Leicesters are white sheep with a long bodies. They have large ears that point upwards and a large wide roman nose.</p>	
<p>Boer goats are generally white coloured with red or brown heads. They have a pair of long and pendulous ears.</p>		<p>Merino sheep are adapted to most conditions. They are medium-sized sheep with valuable wool. Their ears are small and point out from the side of their head.</p>

RESOURCE: LIFE CYCLES ON THE FARM

Lesson Objective

Students will learn about the life cycles of different living organisms and have the opportunity to sequence and create their own representations of life cycles on a farm.

Link to Poster [Goats: Growing and changing](#)

Link to Teacher Guide [Activity 2.3 Life cycles on the farm](#)

Link to Student Presentation [2.3a Life cycles on the farm](#)

Link to Student Worksheet and Stimulus [2.3a Life cycle of goats](#)

Life cycles on the farm

Cattle, goats and sheep are mammals.

Mammals (usually) give birth to live young. They are warm-blooded, are vertebrates (have a backbone), grow hair or fur and produce milk to feed their young.

Looking after calves and lambs

Farmers keep a close eye on pregnant cows and sheep (ewes) to make sure they stay healthy during their pregnancy. When it is time for the calves or lambs to be born, they are checked regularly to ensure that both the mothers and the babies are doing well.

If for some reason, a mother is unable to take care of her offspring, farmers might help to feed and raise a new calf or lamb. These babies are called puddy lambs or puddy calves.

Farmers will look after the puddy lambs or calves by regularly feeding them milk from a bottle. They will help introduce the babies back into the flock or herd when they are old enough and strong enough to manage on their own.

The life cycle of a goat starts when they are born. A baby goat is called a kid. When a kid grows and until they are about one year old, a young female goat is called a doeling and a young male goat is called a buckling. The next stage of their life is when they are an adult, and they can have offspring of their own. An adult female goat is a doe and a male is a buck.

RESOURCE: ALL ABOUT ADAPTATIONS

Lesson Objective

Students will learn about the production of livestock in Australia, including the main regions of production, features and adaptations of common breeds and crossbreeds of cattle, sheep and goats.

Link to Teacher Guide [Activity 1.4 Online Learning Task](#)

Link to Student Lesson 1 (page 4) [Online Learning Task: What's special about Braford's?](#)

Australian Good Meat Education resources are developed by
mla
MEAT & LIVESTOCK AUSTRALIA

5-6 | ONLINE LEARNING TASKS

Lesson 1 continued

Lesson 1

When a Brahman bull is crossed with a Hereford cow, the offspring of these animals have mixed characteristics.

These include: smooth sleek coats, a hump, droopy ears, hooded eyes and good pigmentation around the eyes, providing protection and resistance to eye cancer. The cross breed is also more heat-tolerant than Herefords and is relatively tick-resistant. These are some of the reasons why producers farm the mixed breed of animals.

- View the video clip [Goat Genetics – Going into Goats \(3:53\)](#). Listen carefully to the information about the cross breed goats from Allambie Station in QLD and fill in the gaps about these breeds.

Distribution

The Rangeland goats would not grow enough.

They cross the Rangeland with a Kalahari to produce a breed.

The Rangeland goats are hardy, and have an factor.

The Kalahari brings in excellent quality.

Kalahari are also camouflaged with their environment, and therefore are less susceptible to .

The Nubian breed offer extra height for extended walking and feeding, and can reach

for browsing, and have a good milk capacity.

goodmeat.com.au/education | 4

RESOURCE: WHERE DOES AUSTRALIAN RED MEAT GO?

Lesson Objective

Students will learn about the economic value of meat, features of the domestic and export markets, and study aspects of the Indonesian international market.

Link to Teacher Guide [Activity 4.4 Online Learning Task](#)

Link to Student Lesson 4 (pages 9-10) [Online Learning Task: Goatmeat](#)

Lesson 4

Goatmeat

Goatmeat is widely consumed around the world but remains a largely niche part of many consumers' diets.

The value of Australian goatmeat exports totalled \$145.5 million dollars in 2020.

Australia remains the largest exporter of goatmeat, despite accounting for approximately 1% of global production.

1. View the video clip [Introduction | Going into Goats \(7.05\)](#) to learn about the goatmeat industry in Australia.

2. Identify two advantages of farming goats that are discussed in the clip.

Boer goats have appealing traits, in terms of production, fertility, maternal qualities and ease of management.

Boer goat traits include:

- High fertility
- Heavier than other breeds
- Higher dressing percentage than other goat breeds
- Reach slaughter weight more quickly than other goat breeds
- Meat is low in saturated fat and cholesterol (see [references](#)).

Lesson 4 continued next page

VERSION 9

Achievement Standards

Students recognise the features of familiar places, why some places are special to people and the ways they can care for them. Students pose questions, and sort and record information from observations and provided sources. They share a perspective and draw conclusions. Students use sources and terms to share observations about places and the past. Students use play, imagination, arts knowledge, processes and/or skills to create and share artworks in different forms.

HASS: Inquiry and Skills

Pose questions about familiar objects, people, places and events

[\(AC9HSFS01\)](#)

Sort and record information including pictorial timelines and locations on pictorial maps or models [\(AC9HSFS02\)](#)

Share a perspective on information, such as stories about significant events and special places [\(AC9HSFS03\)](#)

Share narratives and observations, using sources and terms about the past and places [\(AC9HSFS05\)](#)

HASS: Geography

The features of familiar places they belong to, why some places are special and how places can be looked after [\(AC9HSFK03\)](#)

The importance of Country/Place to First Nations Australians and the Country/Place on which the school is located [\(AC9HSFK04\)](#)

Media Arts & Visual Arts: Developing Practices and Skills

Use play, imagination, arts knowledge, processes and/or skills to discover possibilities and develop ideas [\(AC9AMAFD01\)](#) & [\(AC9AVAFD01\)](#)

Media Arts & Visual Arts: Creating and Making

Create artworks that communicate ideas [\(AC9AM AFC01\)](#) & [\(AC9AV AFC01\)](#)

VERSION 8.4

Media Arts

Explore representations, characterisations and points of view of people in their community, including themselves, using settings, ideas, story principles and genre conventions in images, sounds and text

[\(ACAMAM062\)](#)

Plan, create and present media artworks for specific purposes with awareness of responsible media practice [\(ACAMAM064\)](#)

Visual Arts

Explore ideas and practices used by artists, including practices of Aboriginal and Torres Strait Islander artists, to represent different views, beliefs and opinions [\(ACAVAM114\)](#)

Develop and apply techniques and processes when making their artworks [\(ACAVAM115\)](#)

Plan the display of artworks to enhance their meaning for an audience [\(ACAVAM116\)](#)

Design and Technologies: Knowledge and Understanding

Examine how people in design and technologies occupations address competing considerations, including sustainability in the design of products, services and environments for current and future use

[\(ACTDEK019\)](#)

Investigate how and why food and fibre are produced in managed environments and prepared to enable people to grow and be healthy

VERSION 9

Achievement Standards

Students use media languages, and media technologies and production processes to construct representations in media arts works for specific purposes and audiences. They present their work in informal and/or formal settings using responsible media practice.

Students develop and document ideas for their own artworks. They select and use visual conventions, visual arts processes and materials to create artworks that communicate ideas, perspectives and/or meaning. They present documentation and artworks that communicate ideas, perspectives or meaning in informal and/or formal settings.

Media Arts: Creating and Making

Use media languages, media technologies and production processes to construct media artworks that communicate ideas, perspectives and/or meaning for specific audiences ([AC9AMA6C01](#))

Visual Arts: Developing Practices and Skills

Experiment with, document and reflect on ways to use a range of visual conventions, visual arts processes and materials ([AC9AVA6D01](#))

Visual Arts: Creating and Making

Use visual conventions, visual arts processes and materials to plan and create artworks that communicate ideas, perspectives and/or meaning ([AC9AVA6C01](#))

VERSION 9

Achievement Standards

Students select and justify design ideas and solutions against design criteria that include sustainability. They communicate design ideas to an audience using technical terms and graphical representation techniques. Students develop project plans, including production processes, and select technologies and techniques to safely produce designed solutions.

Design and Technologies: Knowledge and Understanding

Explain how and why food and fibre are produced in managed environments ([AC9TDE6K03](#))

Explain how the characteristics of foods influence selection and preparation for healthy eating ([AC9TDE6K04](#))

Design and Technologies: Processes and Production Skills

Investigate needs or opportunities for designing, and the materials, components, tools, equipment and processes needed to create designed solutions ([AC9TDE6P01](#))

Generate, iterate and communicate design ideas, decisions and processes using technical terms and graphical representation techniques, including using digital tools ([AC9TDE6P02](#))

Select and use suitable materials, components, tools, equipment and techniques to safely make designed solutions ([AC9TDE6P03](#))

Negotiate design criteria including sustainability to evaluate design ideas, processes and solutions ([AC9TDE6P04](#))

Develop project plans that include consideration of resources to individually and collaboratively make designed solutions ([AC9TDE6P05](#))

VERSION 8.4

Design and Technologies: Processes and Production Skills

Critique needs or opportunities for designing, and investigate materials, components, tools, equipment and processes to achieve intended designed solutions ([ACTDEP024](#))

Generate, develop and communicate design ideas and processes for audiences using appropriate technical terms and graphical representation techniques ([ACTDEP025](#))

Select appropriate materials, components, tools, equipment and techniques and apply safe procedures to make designed solutions ([ACTDEP026](#))

Negotiate criteria for success that include sustainability to evaluate design ideas, processes and solutions ([ACTDEP027](#))

Develop project plans that include consideration of resources when making designed solutions individually and collaboratively ([ACTDEP028](#))

INTERNATIONAL AWARD WINNERS

The Royal Queensland Show (Ekka) is recognised for its excellence, over many years, by winning numerous awards at the International Fairs & Expos (IAFE) Awards.

IAFE has more than 1,000 members representing agricultural fairs from the United States, Canada, the United Kingdom, and Australia.

These awards represent the continued dedication the Ekka plays in bridging the country city divide, and educating the next generation on the essential role farming and agriculture plays in their everyday lives.
